LOW VOLTAGE AC SECTOR

About Us

Since 1994, L.C. Switchgear (Carville) have designed, manufactured and installed low voltage AC Distribution boards, Panel boards, Switchgear assemblies and associated products. We currently supply into a number of markets including; L.V infrastructure, hospitals, government, commercial buildings, banks, universities, and renewables.

Products

We can offer a comprehensive range of LVAC switchboards from simple single phase distribution board to large scale changeover systems with multiple incomers up to 6300Amp.

Depending upon your design requirements we can supply:

- Fully Type Tested IEC 61439-1 and 2, where required and specified.
- Bespoke designed and manufactured panels, when space or access is restricted
- Modular systems for more conventional locations and access, straight shape, L-Shape, U-Shape
- Front or rear access, top bottom or side cable entry / outgoings
- All types of separation in line with BS EN 61439
- Components from various major brands such as Schneider, Mitsubishi, Hager, Siemens, Socomec, Eaton and ABB can be accommodated

L.C. SWITCHGEAR

SPECIALISTS IN AC & DC SWITCHGEAR

Design Services

LCS

Starting from a single line diagram and a switch room layout, our engineering team can design a panel that fulfils your requirements. We pride ourselves on close collaboration with the end customer, consultant or contractor to achieve the optimum design.

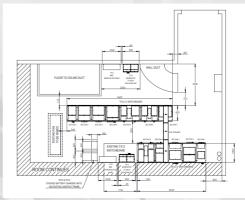

Site Services

We offer a comprehensive range of site services including:

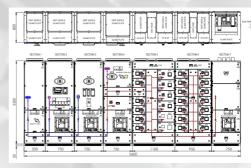

- Site surveys and condition reporting
- Repairs and maintenance of existing panels
- Upgrades to switchgear control and protection, either on warehouse or on site.
- Upgrading existing devices, incoming or outgoing devices, including relays, surge protection and meters
- Installation and Commissioning, providing aftersales services.
- Specialist for delivery and installation to difficult to access locations

Why LCS?

- Extensive experience since 1994
- Skilled and Dedicated Workforce
- Excellent Project Management Capability
- Bespoke Design to fit the Tightest of Locations
- Proven Track Record.
- High Rate of Repeat Business
- Risk Ownership What we Quote is what you Pay, No Hidden Extras
